

Sign the Oil & Coal Train Petition to the Governor

Dear Governors,

Coal and oil transport is dirty, dangerous, disruptive, and poses an unacceptable risk to the Columbia River Gorge and communities along rail lines. As oil and coal travel through the Pacific Northwest on trains, supertankers, and barges they pose serious threats to our health, economy, waterways, and climate. It is time for Washington to lead on safe, renewable, clean energy solutions and say no to more oil and coal. Please do everything in your power to stop these dangerous proposals.

Providing Friends of the Gorge with your email will subscribe you to our Action Alerts which is the best way to stay updated on our conservation issues (only a few important emails a month). Thank you for joining our online community.
